SEA DREAMS are made of this, who am I to disagree?
I travel the world and the seven seas, everybody's
looking for something.

We could say that everybody is looking for design,
colour, style and inspiration but at the end we're always trying
to make our dreams come true.

Our challenge is to meet your wishes creating new concepts
that could inspire you for the next project, taking advantage of
all our technologies as Tufting, Wilton, Axminster and Handtuft.

Sea dreams offers more than 50 different proposals,
a perfect mix of pattern and colours that has been created
to bring a contemporary elegance to any spaces even if we
know that the best concept has not been realized since it will
be developed for your next Dream ...

*prepare to be
amazed...*
